Online: Submit Claims Through Your Office Billing Software

We know that billing software can vary and that interfaces are all different. Irrespective of submission method, payment will be received in the way you have been accustomed via the designated channel you have set-up. Below are some basic steps to ensure that you can properly submit a claim through your office billing software.

Billing Software Setup

First, make sure that the Payer ID 56155 is an available Payer ID in your system.*

If the Payer ID is available:

You can begin submitting electronic claims through your system.

If the Payer ID is not available,

give us a call for assistance with figuring out how to add the ID to your system.

Once Payer ID 56155 is available in your system, please add the **Sandoz One Source Co-Pay Program** to your patients' insurance profile as a secondary or tertiary payer. Include the **Group Number 00003696**, Payer ID, and the patient's unique Member ID, or the claim will be rejected in your system.

If you do not receive remittance back, then you can ask your practice and billing vendor to allow the reception of electronic remittance advice (ERA) [EDI 835] messages from **Payer ID 56155** in order to receive claims adjudication results.

Clearinghouse Setup

The Sandoz One Source Co-pay Program and its co-pay payment partner have developed relationships with several software vendors and all major clearinghouses in order to ensure that the claims are routed properly to the program for processing.

If you are having trouble submitting claims to the program, please contact us at 1-844-4SANDOZ (1-844-472-6369).

*If your system requires a 4 digit Relay Health Payer ID, please use the following as appropriate: Relay Professional Claims Payer ID: 7821 or Relay Institutional Claims Payer ID: 9532.

Leveraging the Pharmacy Benefit

In certain cases, CIMERLI[®] may be covered under the patient's pharmacy benefits.

For claims that process through the pharmacy benefit:

1. Use patient's prescription insurance for the primary claim.
2. Process a COB claim to PDMI as the secondary claim.

*Please note: There is no PCN number for this co-pay program, providers will need to leave this section blank.
